

Eco School and Warriors

Be brave enough to think you can change the world. Be humble enough to know you cannot do it alone.

Uplands has had a great year being an Eco school and having the Green Eco Flag once more!

This year we have been busy building our outdoor learning space and making it so that it is filled with lots of plants, flowers and wild life! One of our achievements that we are really proud of this year is the Living Wall.

Situated across the pathway which leads into our flower garden, the living wall is made completely from recycled materials such as plastic water bottles and reclaimed wood. They have been filled with seeds donated to us from a local garden centre and they bloomed in a gorgeous scenery for us all to enjoy. Thank you to all of you who brought in empty water bottles and made our Living wall truly living! We look forward to planting it with some seasonal herbs in the new year!

Following on from our sunflower stall earlier in the summer term, we are pleased to announce our sunflower raffle ticket winner (drum roll...!)...Madina Abdul Shakkur in 3 Ash! Congratulations, Madina- we are not surprised you won since you were really committed to this raffle competition and were the top buyer of the day! Well done and hope you enjoyed your sunflower!

We are very pleased to announce this year's winner of the sunflower competition who sent regular updates of their sunflower plant throughout the term. Congratulations Samarah Patel in 4 Hazel- you have shown what you can do with a bit of love, care and a couple of seeds!

There will be lots of green dots and prizes for your part in litter picking over the summer whether it's at home, on your holiday or at your friends! Send in all photographs to the email below for the attention of Mrs Adam.
